Professional Summary

Full Stack Developer with hands-on experience in building responsive web and mobile applications using React, React Native, Node.js, Express.js, and MongoDB. Skilled in REST API integration, UI development, and backend implementation through real-world projects and internships.

Education

Silicon University

2023 – 2027

Bachelor of Technology – Computer Science & Engineering ; CGPA: 9.31

Bhubaneswar, Odisha

Sai Higher Secondary School

2022

Higher Secondary Education ; Percentage: 83.67%

Baripada, Odisha

Experience and Achievements

MERN Stack Developer

CodeBeat

- Worked on full-stack web development using MongoDB, Express.js, React.js, and Node.js.

Mobile App Developer (React Native)

Syllogstek Systems

- Developed cross-platform mobile applications with frontend UI and REST API integration.

Real-World Project Experience

Fularani Foundation NGO

- Contributed to frontend and backend implementation for real-world development projects in a Group.

Activities: Active member of Silicon Achievers Club and actively participates in Ideathons and Hackathons.

Projects

Spektra – Language & Skills Social Platform

- Built a full-stack MERN social platform connecting users through language-based and skill-based communities with secure authentication.
- Implemented real-time one-to-one messaging, voice/video calling, community discussions, and using Socket.IO and Stream Chat.
- Developed interactive features including quizzes with leaderboards, local news by country/category, community joining, profile management, and responsive UI using React, Tailwind CSS, and Node.js.

BuddyAI – AI Chat Application

- Built a MERN-based AI chat application using React, Vite, Tailwind CSS, Node.js, Express.js, and MongoDB.
- Integrated Gemini and Groq APIs to provide AI-powered conversational responses and intelligent features.
- Implemented JWT-based authentication, user credit management, and payment workflow using Razorpay test APIs.
- Integrated ImageKit for image handling and developed a responsive, user-friendly chat interface.

Eaxier – Service Marketplace

- Designed and developed a React Native service marketplace for urban and rural users.
- Implemented location-aware listings and streamlined onboarding experience.

Technical Skills

Programming Languages: C, Java, JavaScript

Frontend Development: HTML5, CSS3, React.js, React Native, Tailwind CSS, GSAP, Expo

Backend Development: Node.js, Express.js, REST APIs

Generative AI: Gemini API, Groq API, LangChain (Basics)

Databases & Cloud: MongoDB, SQL, AWS (Basics)

Tools & Version Control: Git, GitHub, Postman

Interests

Web and App Design, Playing Chess, Exploring New Technologies
